

Notes:

- Outline planning layout is indicative only, and may be subject to amendment.
- Areas of existing hardstanding incorporated into the new EAF development are not proposed to be formally drained by virtue of existing drainage systems, and the proposed works not having drainage implications.
- Areas of ducting, pipes and elevated structures are not to be formally drained - rainwater shall fall to ground based structures, whether permeably or impermeably surfaced, and drained in accordance with those requirements.
- Further reference should be made to the Outline Drainage Strategy drawing (ref P&C - SuDS004 - EAF Project - TATT3054 - Rev D - 10th September 2024) as to the proposed surface water drainage system.

- Legend**
- Existing Hardstanding - Not to be drained
 - Elevated Structures - Not to be Drained
 - Reservoir
 - Proposed Roof
 - Proposed Road
 - Hardstanding
