

Notes:

- Outline planning layout is indicative only, and may be subject to amendment.
- Areas of High Pollution Hazard are designated as such as a result of being within distance for 'high' pollutant loading to roofs as a consequence of the proximity to fume extraction, and/or materials being stored or moved.
- Areas of High Pollution Hazard shall be drained via a piped system to the onsite wastewater treatment works
- Areas of Medium Pollution Hazard shall be drained via SuDS to a nearby waterbody. Where required, proprietary treatment shall be provided to mitigate the risk of detriment to receiving waterbodies.
- Areas of Low Pollution Hazard shall be drained via SuDS to a nearby watercourse.

KEYPLAN

Legend

Full Planning Boundary

Pollution

- High
- Medium
- Low
- Exempt

For areas of Full and Outline planning please refer to EAF-LAW-X-X-DR-A-900009_Proposed Site Plan - Hybrid Planning Application_P06. Outline planning layout is indicative only, and informs the principals of the surface water drainage strategy within this areas of the site
